OFFICE GLASGOW WEEKLY TIMES / January, 24, 1849.

The unsettled state of the weather, and fashio unfavorable condition of the roads, have combined to render business rather dull during'the past week. Considerable quantities of tobacco have been delivered, as also some hemp. The market for the latter has not opened; our commercial men standing aloof, waiting further advices. The general impression seems to be that hemp will rule much lower than last year, say about \$80. Contracts can be made, leaving the price to be settled by the St. Louis market in. the spring, deducting expenses of transportation.

TOBACCO .-- \$4 50 seems to be the ruling figures, although a first rate article will command higher prices. We have conversed with several farmers, during the week, who hold their crops at \$5; if they can not get this price, they expect to price and ship. We note the sale of one crop, deliverable in St. Louis, (if an inspection be not established bere) at \$7 for passed, and \$3 50 for refused. We learn from reliable sources that large purchases have been made in Chariton county, at \$5.

WHEAT-Small lots coming in. Prices range from 65 to 75 cents per bushel. APPLES-Green, \$1 121 per bbl. Dried
